Take back your outdoor space with the Spartan Mosquito Eradicator. Deploy Spartan Mosquito Eradicators as soon as the weather begins to warm to create a barrier, giving the mosquitoes a target that emits the same attraction triggers as people and animals. Once mosquitoes feed on the water solution, they are eliminated before they can breed again.

The Spartan Mosquito Eradicator is a uniquely effective, long-lasting, continuous mosquito control system. The Spartan Mosquito Eradicator also doesn't require batteries or electricity, just add water and shake! The mosquito population will suffer dramatically in the first 15 days, and will be 95% controlled for up to 90 days.

Help protect your environment from mosquito bites. Invest in Spartan Mosquito Eradicators and take back your outdoors THE SPARTAN WAY!
